

WE'LL SEE YOU AT CEFPI

This is a highly valued and positive learning space where teachers coach and support students' self efficacy as effective learners. This is enabled by an engaging learning environment supported by a range of easily accessible source materials and digital devices.

Over the last 2 years, the year 12 students using the new centre have achieved 100% completion of their SACE (South Australian Certificate of Education) and achieved the best overall Year 12 results in the history of the College

Year Completed:	2012
Building Area:	848 sqm
Site Area:	7 Ha
Budget:	\$1,754,800
Cost/sqm:	\$2069

Description

The Senior School Building was constructed by AUSCO in 2011.

The building was delivered in modules with 4 rooms and toilets on the ground floor with doors between rooms and the most recent technology available.

Upstairs the equivalent of 4 rooms is presented as one open space with an office area with windows allowing for observation of the open space. The area incorporates excellent sound proofing and clean spaces.

Students and staff selected diverse furnishing to create different learning spaces and to accommodate various types of teaching styles.

All furniture used is mobile to accommodate creative diversity in learning approaches and activities.
